

FitBuds

Elevator Pitch

Location Based Phone App for finding a training partner near you.

Meet people, Socialise & get fit for cheaper than the cost of a personal trainer!

The Problem

1

World obesity ratio & screen-time detracting from exercise regimes.

2

Easily finding similar-level fitness training partner/s in local area with similar availability / motivation level.

Trying to get motivation to get away from screens

Screen-based entertainment is so enticing compared to boring gym!

Trying to get fit & enjoy getting fit

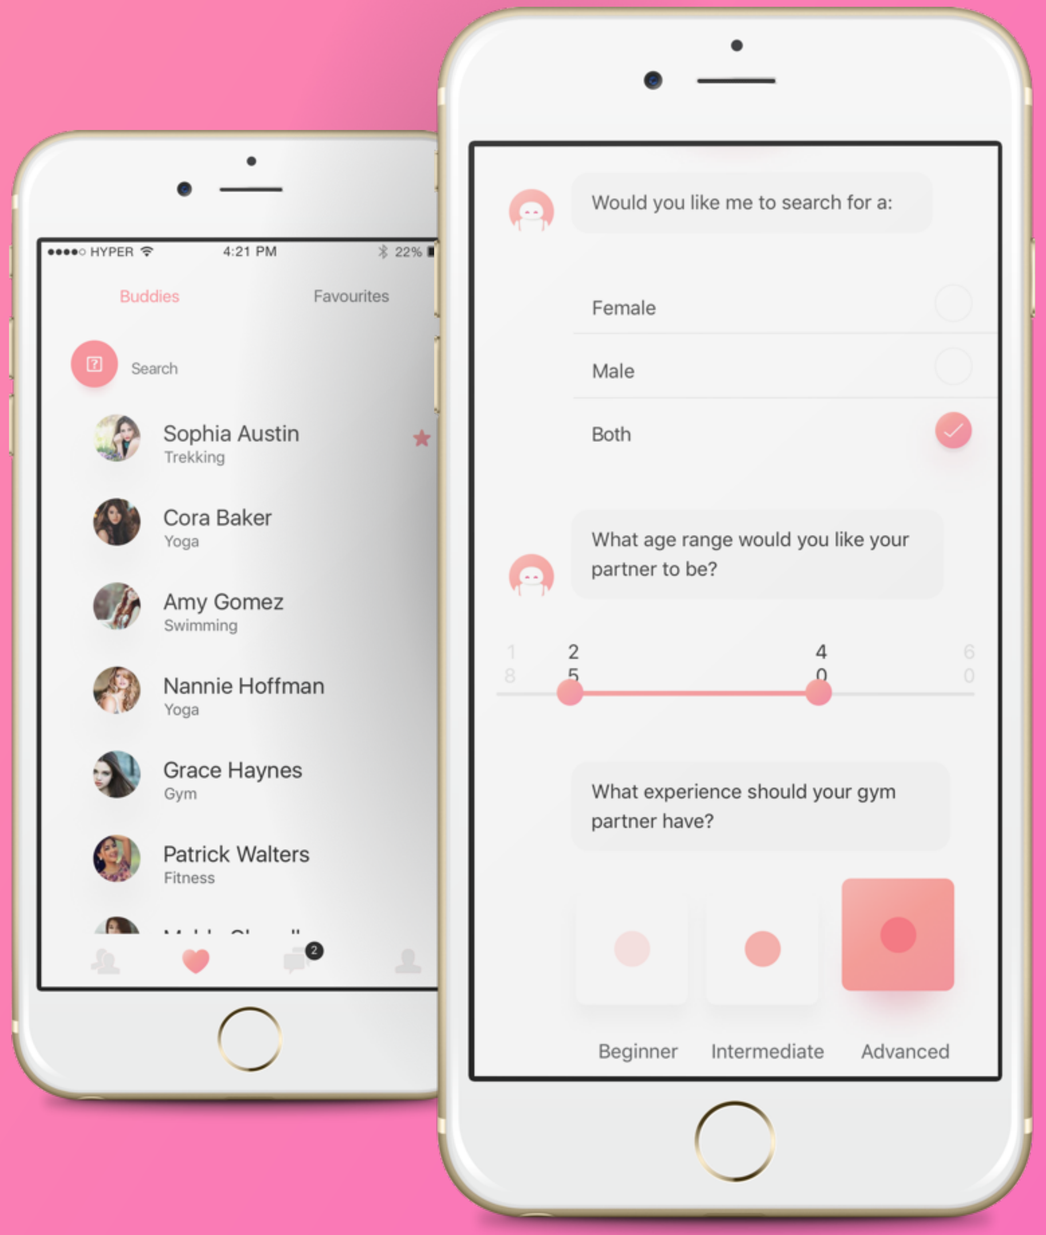

Millions of people world-wide waste gym fees every year because it can be un-fun &/or intimidating because of “Roid Boys” etc.

Feeling overweight & unfit & depressed

If you’re single it can be depressing wasting time on Tinder instead of living life & socialising & enjoying getting fit & feeling confident.

The Solution

Download the app & browse through same sex, opposite sex or both; same & opposite sex prospective gym partner/s.

The Product

FitBuds Smartphone App

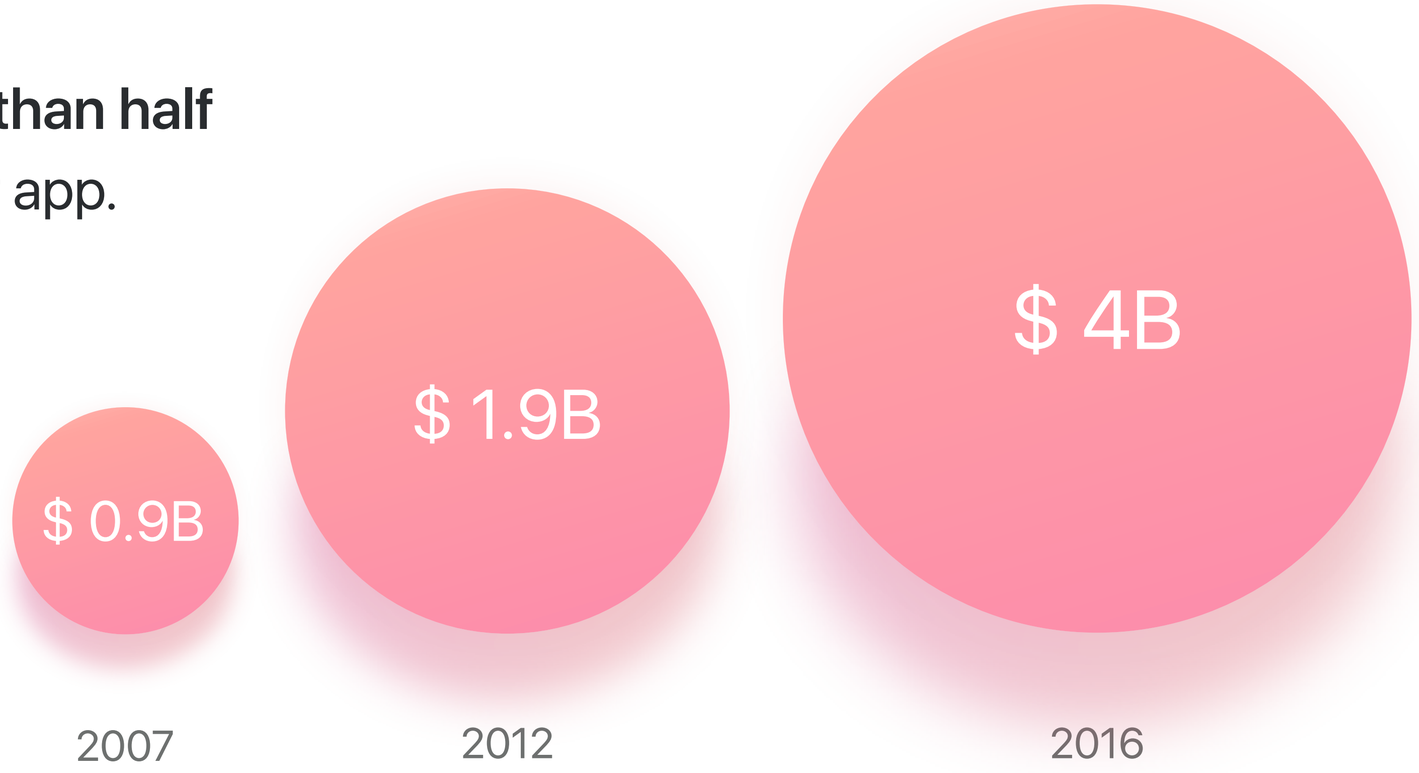

It’s overdue for “us” to finally fix a hole in the market for people looking for gym partners!

This app NEEDS to exist & it’s frustrating that this app isn’t already an essential, fundamental part of people’s fitness program/s!

The Market Size

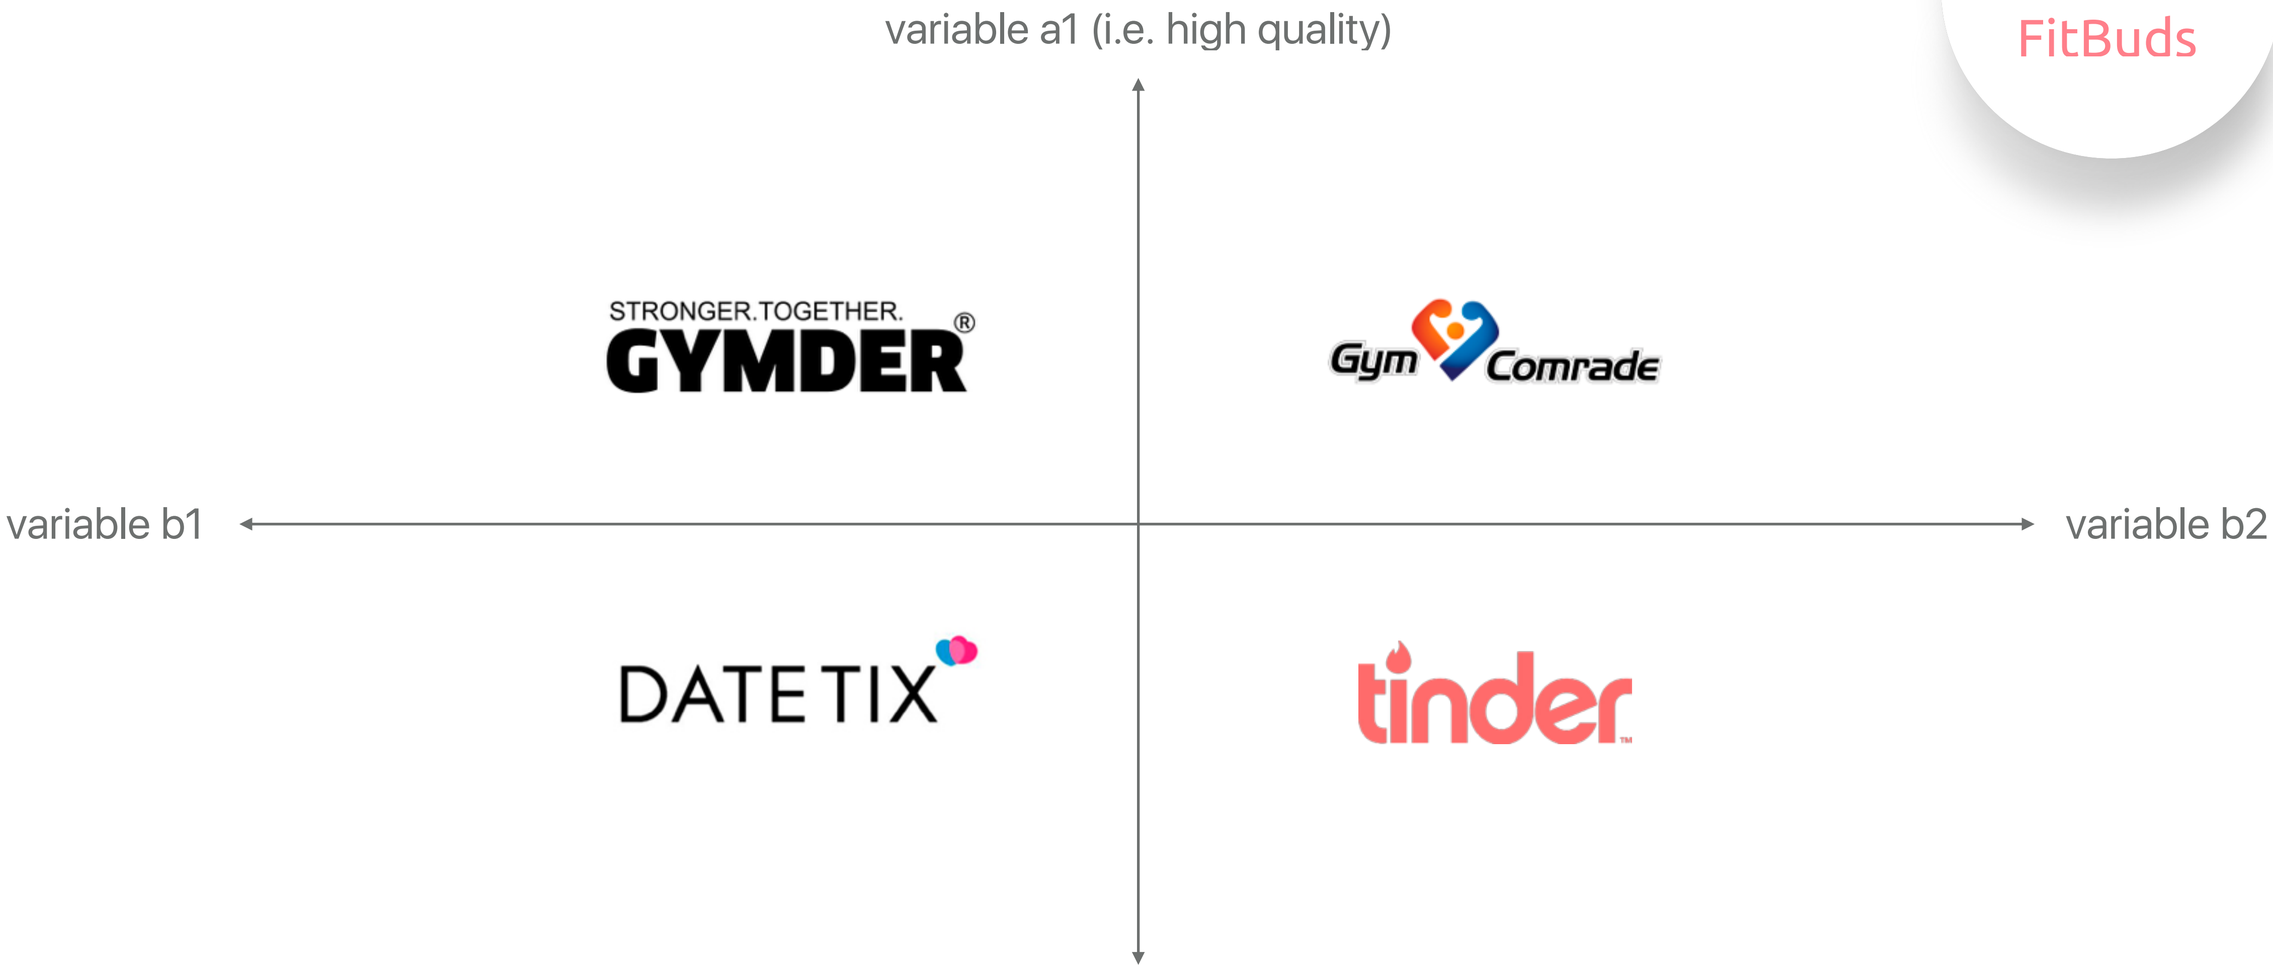

One in 10 adults now average **more than half an hour every day** on a dating site or app.

China's large dating market propelled **Momo**, China's version of Tinder, from start-up to a **$ 3.3B** market capped company in just **three years**.

Momo launched in Aug 2011 and IPO'ed on NASDAQ in December 2014. It increase its revenues by 13 times over in just one year from 2013 to 2014 and it did so by offering a simple dating solution based on online chat.

The Product

variable a1 (i.e. high quality)
variable b1
variable b2
variable a2 (i.e. low quality)
FitBuds
STRONGER.TOGETHER.
GYMDER®
Gym Comrade
DATE TIX
tinder

Unfair Advantages

1

Non-confrontational dating app compared to Tinder

2

Get fit & meet people at the same time

3

Even if you don’t find love at least you can still get fit & find a new friend.

User Engagement

Tactic 1

Put FitBuds Posters at every gym's front desk in exchange for free gym advertising on FitBuds.
Posters can have a unique code for users to get "free app" that tracks which gym the code came from so the gym can get proportional free advertising on FitBuds.

Tactic 2

Create an illusion that the app costs but users can get "free" if they share on their Facebook wall or message an invite to friends in Messenger.

Tactic 3

Remove annoying ads by paying for the premium version

Business Model

Subscription based Smartphone App with multiple levels of income including advertising, subscriptions & premium features for extra additional income.

Monetization method 1:

Paid ads mixed into profiles & messaging part of app

Monetization method 2:

Remove ads by paying for premium version

Monetization method 3:

Offer premium feature/s for additional cost i.e. message anyone without already being FitBud friends, etc.

Traction Forecast

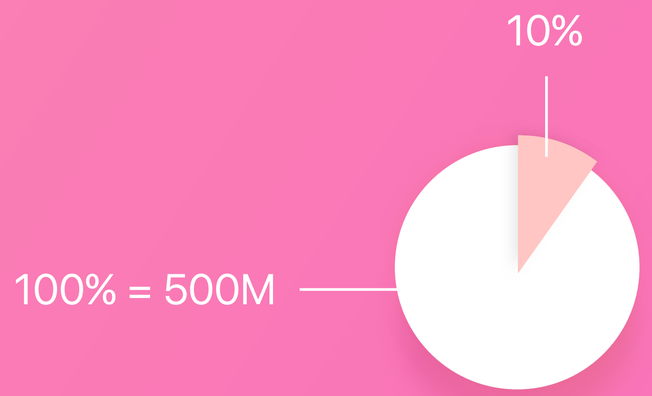

Short-term aim:

sign up 1 million users in first year

10 year goal:

sign up 10% of 500 million adults that use dating apps daily
= 50 million daily users

Revenue Forecast

	2018	2019	2020	2021
Users	1M	10M	20M	50M
Revenue	$ 1M	$ 10M	$ 40M	$ 100M

Funding

Raising:

$ 20M

at a $100M valuation
